Hello, I'm

AARON LATHAM

Junior Software Developer

About Me

With an unwavering passion for technology and a relentless drive to learn, I'm an aspiring software developer currently immersed in a 12-week master software bootcamp. This challenging yet rewarding endeavor has ignited my fascination with the intricacies of coding, allowing me to delve into the world of HTML, CSS, JavaScript, and frontend frameworks like React.js and Next.js. As I navigate this dynamic landscape, I'm eager to apply my knowledge and contribute meaningfully to innovative projects, always seeking guidance from experienced mentors who share my enthusiasm for innovation.

Experience

Carer
Volunteer Care
2015 - Present

Mail Sorter
Royal Mail - Preston Mail Centre
2014 - 2015

Student
Preston College, Preston, UK
2012 - 2014

Certification

Code Nation: 2024
Master Software Graduate

Through CodeNation's intensive 12-week Master: Software bootcamp, I gained over 480 hours of hands-on coding experience.

This comprehensive program equipped me with the essential skills and knowledge to pursue a career as a Junior Developer.

Our curriculum provided a thorough grounding in HTML & CSS, JavaScript, React.js, GitHub, and Netlify hosting, empowering me to build interactive web applications.
